RE: Pedestrian Signal Improvements at Esplanade and Boston Post Road

Dear Mr. Pierpont:

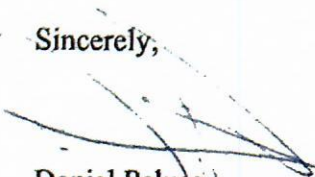

On February 23rd, 2021 one bid was received for the above referenced project. The bidder was Verde Electric Corporation with a total bid price of \$149,765.00. This bid is \$16,205.00 lower than the previous bid submitted this past November. This bid price reflects the savings in additional labor required winter season work. Due to demands from the impact of COVID-19, the supply chain and manufacturing costs for the signal equipment and materials make up over half the costs of the bid price.

Our office has had previous experience with Verde Electric Corporation, and we have found their work to be satisfactory.

This office therefore recommends award of the project to the low bidder, Verde Electric Corporation of 89 Edison Ave. Mount Vernon, 10550.

Please advise us of your decision and when you will be scheduling a meeting with the contractor regarding contract signing, insurance policies and a tentative work schedule.

Sincerely,

Daniel Peluso
Project Manager
